

Japanese Chin Club of America
Education Committee
Mission Statement
Revised 2020

The Japanese Chin Club of America strives to help produce knowledgeable Club Mentors and AKC Judges. The preservation of our Japanese Chin Standard is paramount and we must encourage our mentors and judges through education. This is a breed that we do not seek to improve but to preserve and protect.

The Japanese Chin Club of America Education Committee sets expectations of excellence on all sides between mentor and mentee.

Communication is key along with establishing a culture among us that allows both mentor and mentee to ask for help or resources. The education committee will maintain an ongoing effort to improve education about our Japanese Chin and its heritage, breed type, and soundness. Our mentors and presenters are encouraged to utilize the resources and knowledge of each other and our committee. We encourage mentors to always feel an open line of communication with the education committee. We can all learn, share knowledge and develop our skills with each other's help. Our breed is counting on us.

We celebrate our mentor's strengths and offer to help to those whose skills need to be honed.

The core values of the JCCA Education Committee are to be:

- 1.) Welcoming
- 2.) Committed to the integrity and preservation of the Japanese Chin Breed Standard.
- 3.) Maintaining ongoing education about the Japanese Chin with an emphasis on preservation and keeping our dogs sound. Protecting from trends in the conformation ring changing our Breed type and grooming.
- 4.) Demonstrating a physical and emotional dedication to our members, mentors and our dogs.
